

Dear ZimLnr,

March 14<sup>th</sup> 1945.

We have not heard from you for some time and I hope the reason is, you are too busy with your studies. However, to write as soon as you can. —

Things here are pretty much the same. The political news is very hopeful indeed. I really do think it will be over almost before the summer comes, at least in Europe. What is the general opinion over there? Do you personally take a great interest in politics, or have you not time for that? — After having lived on a farm for quite

a considerable time, how does the life in the city affect you? Do you like it better? Where would you rather live later on if you could choose? How are you progressing at the University? What kind of building is it? Is it modern? Are only Jewish students there or is it mixed? How are you getting along with teaching. It must be hard if you have to study a lot. 100 is nearly here. Esther & myself are going to Levittown to stay with Sam for the week. I am going to hear difficulties in taking the time off, but it must be done. Tully will be there too. It will be very nice. — I'll give you Tully address, in case

You want to write to him,  
 He really is very bad in answering  
 letters. When I sometimes have to  
 wait for weeks. 26. KENDAL STR.,  
 LONDON W.1. —. Where are  
 you going to be now? With the relations  
 I suppose. Please give them all my very  
 best regards. I hope they are well as  
 you will send a very pleasant  
 C<sup>m</sup>. Does Uncle Fritz still come to  
 see you sometimes? — I have  
 asked you lots of questions and  
 I hope you will answer them all.  
 I am writing this letter in the factory  
 we are just having a short break  
 for tea. There goes the bell. Oh I'll  
 say good bye for now. Write soon  
 lots of love  
 Fay.
