Dear Gavin

I was very pleased when Tony's husband
sent your letter (from 31st July). We were really
beginning to wonder about you. Thank you.
It is not so bad as the papers write. (Dear husband
was so particular how was Prince Stefan in Berlin?)

I hope you are enjoying your holiday, I am
sure you can do with it.

Surprising how the time flies, I am very
busy that is true, but surely I ought to find
more time to write to you, if only a few lines.

You see, I keep postponing it from day to day
until I now realize that unless I write without
any longer writing to you.

Be sure it's well, there is so much I would like
to tell you, it seems a problem to know where to
start.

2.1

My daughter:

Well, they are "very well and growing up. We have a lot of ones from them. I am enclosing the 5 long apr promised photos. It is only one of the proof. And it will take some time before we will get the copies. Ruthy is quite good in the photos, but the baby was very tired and ~~stiff~~ She is always smiling, she did not feel like it of the time the photos was taken.

You will now be able to make yourself a picture of how Ruthy & Judith look like. Do you think they are a like? They are, but the little one is a bit taller.

Ruthy's goes to kindergarten now. She loves it there. On the next Sunday she begins working when is Monday, so that she could go back to school again. They do all the sort of things there.

3.1

She prefers "Pointing" to all the other water-tain wants. Ruthy does not play much with dolls, she would rather be cooking and making tea, also cooking and ironing. She loves her little sister and can hardly wait for the time to come when she could take Judith to school with her.

I have not found any real "Brie" things -

Problem: yet. I know that I love that to come. She is asking questions all the time and some-times I am not sure of a good answer.

For instance: When Judith was born, there were a lot of things she wanted to know. Or she asks what makes the fire burn? What does the lightning do for dear God? How do we get a ladder for coming down? Do we have a ladder? etc.

Yesterday when I was curling her hair she asked me: "Did you need to curl daddy's hair when he was a baby?"

She really makes no sense with the things she comes out with. She has Kuron all the colors for a long time, and Kuron very well which two colors go nicely together and she's that sort. There is not much to talk about little Judith.

She is in getting on very well. She is making every effort to ~~set~~ sit up, but has not succeeded yet. Judith is a very good baby she hardly ever cries, but makes plenty of funny noises.

You will be news news, that Chain has opened a factory in ~~London~~ with Smiles and a friend of Chain's Mr. Hollaway (an English man)

They call themselves: ⁵⁷

"Elastic Woodcraft Ltd."

The factory is very near us. As you all read favors Chain is an artist, and all the articles produced are really a good piece of work in design and quality and taste.

Chain & Smiles can not be directors until they become British subjects. Therefore Mr. Hollaway (the 3rd partner) in Director, Smiles - the Secretary and Chain the book's manager.

"After trying it selves" and so they are all working hard. It is very promising. Chain is working all the designs ~~over~~ and medals as he is working hardest. But he is very happy to have his own business now. He has in fact decided to open a factory as soon after the war as possible

6.)

The articles produced are very much praised and the fine work appreciated by all ~~papers~~ ~~papers~~! ~~papers~~! ~~papers~~! They are making hand in hand Chess boards, Modern Photo-frames, Tracing of paintings and reproductions of famous artists. Some types as: See-Saws, ~~boards~~. U.S.A.

About 30 people are employed there now. One except for the skilled men there are mostly young women workers. Some of them only part-time.

An Exhibition is opening in London next month in the Victoria and Albert Museum. Called: 'Britain Can Make It'. They are only accepting new articles not having been produced in the country before. Ours have been accepted.

7.)

The Quele-Burrian Chess Championships were played on our Chess-Board and was televised. Well, now you know all about our factory. So much from me, I am very anxious to hear more from you soon.

With best wishes, love from Charis & me,
Yours Sara.
Anything is sending lots of kisses to her and you.

With best wishes + love from

Sara
