Dear Hendri too!

I'm very pleased indeed, that you like it on the farm, and that you are getting on nicely. According to your letter your english seems to be pretty good, and we are very proud of you, knowing quite a number of languages. Will you please let us know more, about what you are actually doing, do write to us as often as you possibly can. We did not hear anything from our dear mother, and I'm very worried. It should help this war should be over soon and we should all be able to live together. - We have moved from Letchworth. Our new address is: 31. HIGHFIELD-WAY, POTTERS-BARN. MIDDLESEX. ENGLAND. We are here quite satisfied. All in all I like it here if only this war would not be. Our relatives are all keeping well, and sending their regards to you. Ester's is now staying in Letchworth. She'll write to you separately. We are going to have her here with us for the week-end. I'll stop now, it's rather late, I have got to get up early in the morning having one hours ride to my work. I shall write more next time. So let us hear from you soon.

Keep well,

with love Your sister Fay.

Best regard to all our relationship.
