

Dear sisters and brother לני

I am here at a small village near Haifa, named כפר הירוק הדתי. This village is an agricultural-school. It consists of a few houses, where the pupils and the teachers of the school are dwelling in, and the school-building. Round about the village there are our fields and our garden. During the fore-noon we work on the field, agriculture-labour, and in the after-noon we learn at school. We learn here all the (subjects) subjects like at a regular school. I'm here very well getting on. I am supported by the Jewish Agency of Palestine, and may stay here at this school two years.

On 1000 I was in Tel-Aviv at my uncle's. There I visited all the relations. Tel-Aviv is a very nice city. On holiday evening all people of the town take a walk on the avenue at the sea-shore. I'm At this occasion I met a great deal of my acquaintance. On 10000 I went to Jerusalem ירושלים I saw there all the famous antique-buildings. I was there at 11:30.
