TELEFAX (0222) 521 77 230

Vienna, November 2003

Dear Mr. Kornbluth,

due to our previous correspondence with Ms. Von den Benken we enclose the documents and informations we have collected during our research project until now.

On behalf of the museum we would like to apologize for the measurement activities of the anthropological commission. We apologize that your Grandfather had been forced by the scientists to be part of these investigations.

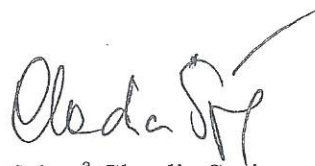

Our aim is to restore the status of the measured people by historical research on the activities of the anthropological commission and by collecting information on the measured people and their families.

Please do not hesitate to contact us for any further questions

Regards  
Yours sincerely

Dr. Margit Berner

Mag.<sup>a</sup> Claudia Spring

Univ. Prof. Dr. Maria Teschler-Nicola  
Head of the Department
